

Angels on Earth

Angels on Earth magazine is filled with true, first-person stories of heavenly angels and earthly ones who find themselves on a mission of comfort, kindness or reassurance. Contributors have received angelic messages in dreams and daydreams, during mysterious encounters or random run-ins, from a strain of music heard by chance or a gust of wind on a still day. Angels take surprising forms as they deliver God's messages, and the unique situations add variety to our pages. Please follow the Guideposts guidelines, but we prefer manuscripts (up to 1,500 words) over pitches.
